PROFILE

I love puzzles, whether it's logic games, hunting down the root cause to an Account Receivable balance, or creating code. As an accountant, I learned attention to detail, organization and how to work within a team. And between juggling a full time job, going to school full time, and being there for my family, I have learned how to prioritize, overcome obstacles, and work hard to achieve my goals. However, my love of art didn't get to be fully expressed until I became a web developer, which allows me to develop (pardon the pun) all of my strengths.

SKILLS

Git/Github, HTML, CSS, JavaScript, Node, MongoDB, SQL, Ruby, SAP, & Excel

WEB DEVELOPMENT EXPERIENCE

General Assembly, Fellow

May '18 - Current

Participated in a full-time immersive web development course, completing in-class projects and personal projects focused on real-world applications of web development principles, tools and best practices. Developed a portfolio of individually and collaboratively focused in-class projects.

PRIOR EXPERIENCE

IBM, Financial and Administrative Business Analyst

May '12 - Current

- Set up and maintain data in SAP.
- Create excel files and formulas for processing, formatting, and uploading data.
- Develop processes to reduce the A/R, and more effectively reconcile to purchaser statements.
- Create desk documentation and training materials.

JCPenney, Office Specialist

Oct '07 - May '12

- Utilized PeopleSoft and jTime to create, update, and maintain employee records for over 200 employees, with speed and accuracy.
- Compiled, reconciled, and prepared payroll information and reports.

EDUCATION

Northeastern State University

Bachelor of Business Administration, Information Systems and Accounting
